The Honorable Pat Roberts
Chairman
Senate Agriculture, Nutrition and
Forestry Committee
U.S. Senate
Washington, DC 20510

The Honorable Debbie Stabenow
Ranking Member
Senate Agriculture, Nutrition
and Forestry Committee
U.S. Senate
Washington, DC 20510

Dear Chairman Roberts and Ranking Member Stabenow,

The undersigned organizations are participants in the valuable Technical Assistance for Specialty Crops (TASC) program. As you are aware, TASC has been in operation for over fifteen years and was created to address sanitary and phytosanitary issues and technical barriers to trade that prohibit or threaten exports of U.S. specialty crops.

During just the past three years, TASC has assisted in overcoming export barriers for specialty crop commodities and projects in Alaska, California, Georgia, Idaho, Iowa, Hawaii, Maine, Massachusetts, Michigan, New Jersey, South Carolina, New York, Oregon, Washington and Wisconsin. Some of the commodities recently participating in this competitive grant program include: almonds, apples, apricots, blueberries, cherries, citrus, cranberries, hops, nectarines, peaches, pears, plums, potatoes, raspberries, seed, strawberries and wine.

We understand that a newly-enforced budget rule has determined that TASC no longer is embedded within the Farm Bill's baseline. This new ruling effectively means that TASC will cease operation on October 1st if new funds cannot be found in an extension of or a successor to the current 2014 Farm Bill.

The urgent market access issues that TASC has resolved fully justify its continuation at the relatively-modest funding level of \$9 million annually. Without the public-private partnership provided by TASC, recent specialty crop exports to Australia, Canada, Costa Rica, Chile, China, the Dominican Republic, the European Union, India, Japan, Mexico, New Zealand, Philippines, South African, Central/South America, South Korea, Taiwan and Vietnam would still be impaired by SPS or TBT issues.

We respectfully request that you provide full resources to maintain TASC beyond September 30th, 2018. Thank you for your interest in maintaining this vital program.

Sincerely,

American Seed Trade Association
California Cherry Export Association
California Citrus Mutual
California Date Commission
California Dried Fruit Coalition
California Dried Plum Board
California Fig Advisory Board

California Fresh Fruit Association
